SUBJECT INDEX

- Adenovirus 1, Equine, isolated from cauda equina neuritis 252
- Adipose tissue in sheep, Effect of lactation on the metabolism 320
- Adjuvant-free immunological manipulation of livestock 108
- Adrenal function in the cat: comparison of the effects of cosyntropin (synthetic ACTH) and corticotropin gel stimulation 331
- African swine fever infection, Cytotoxic lymphocytes induced by 255
- Albumin and IgG in serum and cerebrospinal fluid in dogs with neurological diseases, Immunoelectrophoretic determination of 101
- Antigens, dietary, Survival of, in the digestive tract of calves intolerant to soyabean products 242
- Aqueous humour, secondary, Effect of lysine-acetylsalicylate and phenylbutazone premedication on the protein content of, in the dog 26
- Aujeszky's disease virus infected targets, Natural cytotoxicity detected in swine using 211
- Avian infectious bronchitis virus, Sequential development of humoral immunity and assessment of protection in chickens following vaccination and challenge with 77
- Avian leukosis virus, Detection of: comparison of five techniques 371
- B lymphocytes, leucocytes and plasma cortisole, Changes in piglets from birth to three weeks after weaning 234
- Babesia bigemina* infection in cattle, experimental, Chemoprophylaxis with diminazene aceturate in 126
- Beat-to-beat variability in QRS potentials recorded with an orthogonal lead system in horses with second degree partial A-V block 334
- Behaviour, Differences between sheep and cattle during slaughter 223
- Blood composition, Variations in dairy cows during pregnancy and after calving 129
- Bluetongue virus, three types, Clinical and serological outcome following the simultaneous inoculation of, into sheep 368
- Bovine pneumonic pasteurellosis, Experimental production of 154
- Bracken toxicology: identification of some water soluble compounds from crozier and rhizome 261
- Brain responsiveness, Time loss of, following exsanguination in calves 141
- Camels, Preliminary pharmacokinetic study of isometamidium chloride in 376
- Capital femoral dyschondroplasia in young adult and skeletally mature broilers, Consequences of 310
- Capital femoral epiphyseal infarction in skeletally immature broilers 303
- Caput femoris, Dyschondroplasia of, in skeletally immature broilers 296
- Cardiac arrhythmias of the horse, Relationships of left side systolic time intervals to beat-by-beat heart rate and blood pressure variables in some 18
- Cauda equina neuritis, Equine adenovirus 1 isolated from 252
- Chemoprophylaxis with diminazene aceturate in experimental *Babesia bigemina* infection in cattle 126
- Cobalamin analogues, Contribution to plasma vitamin B12 concentrations in cattle 249
- Celiac disease in man, compared with Morphological and biochemical studies of a naturally occurring enteropathy in the Irish setter dog 339
- Coenurus cerebralis* cyst fluid, Mitogenic effect of 128
- Copper, Effects of dietary depletion on acute and delayed inflammatory responses in mice 205
- Copper loaded sheep, X-ray microanalysis of liver and kidney in, with and without thiomolybdate administration 273
- Corticotropin gel stimulation and cosyntropin (synthetic ACTH), comparison of the effects on Adrenal function in the cat 331
- Cosyntropin (synthetic ACTH) and corticotropin gel stimulation, comparison of the effects on Adrenal function in the cat 331
- Cyathostominae, Inhibited development in the horse in the early third stage 355
- Cysticerci, Absorption of, in cattle after treatment of *Taenia saginata* cysticercosis with praziquantel 378
- Cytotoxic lymphocytes induced by African swine fever infection 255
- Cytotoxicity, Natural, detected in swine using Aujeszky's disease virus infected targets 211
- Dairy cow, Importance of water for the health and productivity of 283
- Dietary components, Hypersensitivity to, in young farm animals: isolation and partial purification of bovine immunoglobulin E 93

- Diarrhoea, green, and Enteritis in experimental avian spirochaetosis 381
- Dictyocaulus filaria* infection, Use of the enzyme-linked immunosorbent assay in the diagnosis of 258
- Diminazene aceturate, Chemoprophylaxis with, in experimental *Babesia bigemina* infection in cattle 126
- DNA polymerase, RNA-dependent, in canine milk, Preliminary report on the presence of 97
- DNA, RNA and protein precursors in cultured mammalian cells, Effects of some clinically significant mycotoxins on the incorporation of 30
- Dyschondroplasia, capital femoral, Consequences in young adult and skeletally mature broilers 310
- Dyschondroplasia of the caput femoris in skeletally immature broilers 296
- East Coast fever, Comparison of long acting oxytetracycline and parvaquone in immunisation against, by infection and treatment 175
- Eimeria tenella*, Growth of *Salmonella typhimurium* in the caecum of gnotobiotic chickens with 230
- Enteritis and green diarrhoea in experimental avian spirochaetosis 381
- Epidermis, bovine, Lipid composition of 120
- Escherichia coli*, mastitis in dairy cows, Progressive pathology of severe 179
- Exogenous prolactin, Effect on immunity in chickens 123
- Exsanguination in calves, Time loss of brain responsiveness following 141
- Fasciola hepatica*, adult, Partial purification of somatic and excretory-secretory products of, and their application for the serodiagnosis of experimental and natural fascioliasis using an ELISA 39
- Fasciola hepatica*, Early migration of immature, and associated liver pathology in cattle 219
- Fasciola hepatica*, Local antibody responses in the bile and faeces of sheep infected with 44
- Fascioliasis, induced, Serum gamma glutamyl transpeptidase activity in cattle with 167
- Feline calicivirus infection in kittens borne by cats persistently infected with the virus 114
- Feline glomerulonephritis, An immunohistological study of, using the peroxidase-antiperoxidase method 12
- Ferritin, sheep spleen, Isolation of 1
- Flunixin inhibits prostaglandin E_2 production in equine inflammation 347
- Foot-and-mouth disease antibodies in piglets, maternally derived, Effect of the sow vaccination regimen on the decay rate of 72
- Furazolidone treated chickens, Plasma and histological changes in 290
- Gastrin concentrations, Immunoreactive, in gastrointestinal tissues of sheep 172
- Gastrin, Plasma, in the pig from birth to weaning 362
- Gastrointestinal nematode parasites of cattle on pasture in eastern Nigeria, Development and survival of infective larvae of 148
- Gastrointestinal nematodes of cattle in eastern Nigeria, Seasonal changes in pasture populations of infective larvae of 144
- German shepherd dog, Relative deficiency of serum IgA in: a breed abnormality 350
- Glomerulonephritis, feline, An immunohistological study of, using the peroxidase-antiperoxidase method 12
- Gnotobiotic calves, effect of, Bacteria associated with calf pneumonia on 194
- Gnotobiotic chickens with *Eimeria tenella*, Growth of *Salmonella typhimurium* in the caecum of 230
- Guaiacol (peroxidase) test for haptoglobins, Adaptation to a microtitration plate system 87
- Haematology of the subclinical fatty liver in dairy cows 63
- Haemonchus contortus*, Resistance to, transferred between genetically histocompatible sheep by immune lymphocytes 199
- Haptoglobins, guaiacol (peroxidase) test for, Adaptation to a micro titration plate system 87
- Histochemical identification of tissue eosinophils in the inflammatory response of the fowl 7
- Humidity, temperature and lung lesions in veal calves, Relationships between counts of nasopharyngeal bacteria and 132
- Hypersensitivity to dietary components in young farm animals: isolation and partial purification of bovine immunoglobulin E 93
- Hypoderma bovis*, Persistence of antibodies in calves after an infection with 383
- IgA serum, Relative deficiency, in the German shepherd dog: a breed abnormality 350
- IgG and albumin in serum and cerebrospinal fluid in dogs with neurological diseases, Immunoelectrophoretic determination of 101
- Immunity in chickens, Effect of exogenous prolactin on 123
- Immunoelectrophoretic determination of albumin and IgG in serum and cerebrospinal fluid in dogs with neurological diseases 101
- Immunoglobulin E, bovine, isolation and partial purification of, Hypersensitivity to dietary components in young farm animals 93
- Immunoglobins in reproductive tract secretions of the mare, Quantitation of 324
- Immunological manipulation of livestock, Adjuvant-free 108
- Immunoreactive gastrin concentrations in gastrointestinal tissues of sheep 172
- Infarction, Capital femoral epiphyseal, in skeletally immature broilers 303
- Inflammation, equine, Flunixin inhibits prostaglandin E_2 production in 347
- Inflammatory response of the fowl, Histochemical identification of tissue eosinophils in 7
- Inflammatory responses in mice, Effects of dietary copper depletion on acute and delayed 205
- Intrathoracic pressure in cattle, Elastic properties in the oesophageal wall in the dynamic measurement of 366
- Irish setter dog, Morphological and biochemical studies of a naturally occurring enteropathy in: a comparison with coeliac disease in man 339
- Isometamidium chloride in camels, Preliminary pharmacokinetic study of 376
- Lactation, effect on the metabolism of sheep adipose tissue 320

- Leucocytes, B lymphocytes and plasma cortisole, Changes in piglets from birth to three weeks after weaning 234
- Lipid composition of the bovine epidermis 120
- Liver pathology in cattle, associated with Early migration of immature *Fasciola hepatica* 219
- Liver, subclinical fatty, Haematology of, in dairy cows 63
- Lymph, Drainage of, from the foreleg to the superficial cervical lymph node in sheep 66
- Lymphocytes, immune, Resistance to *Haemonchus contortus* transferred between genetically histocompatible sheep by 199
- Lung lesions in veal calves, Relations between counts of nasopharyngeal bacteria, temperature, humidity and 132
- Lysine-acetylsalicylate and phenylbutazone premedication, Effect on the protein content of secondary aqueous humour in the dog 26
- Mastitis, bovine, Absence of encapsulation in strains of *Staphylococcus aureus* isolated from 359
- Mastitis, *Escherichia coli*, in dairy cows, Progressive pathology of severe 179
- Migratory waterfowl as flying reservoirs of *Yersinia* species 266
- Mitogen responses, Impaired, in lambs with white muscle disease 357
- Mitogenic effect of *Coenurus cerebralis* cyst fluid 128
- Mycoplasma synoviae*, Diversity in nicotinamide-adenine dinucleotide requirement for the growth of different strains of 353
- Mycotoxins, some clinically significant, Effects of, on the incorporation of DNA, RNA and protein precursors in cultured mammalian cells 30
- Nasopharyngeal bacteria, temperature, humidity and lung lesions in veal calves, Relationships between counts of 132
- Nicotinamide-adenine dinucleotide requirement, diversity for the growth of different strains of *Mycoplasma synoviae* 353
- Nigeria, eastern, Development and survival of infective larvae of gastrointestinal nematode parasites of cattle on pasture in 148
- Nigeria, eastern, Seasonal changes in pasture populations of infective larvae of gastrointestinal nematodes of cattle in 144
- Oesophageal wall, Elastic properties of, in the dynamic measurement of intrathoracic pressure in cattle 366
- Oestrogenic inhibition of soleus muscle development in female mice, Genesis of 138
- Oxytetracycline, long acting, and parvaquone in immunisation against East Coast fever by infection and treatment, Comparison of 175
- Oxytocin in the goat, Biological half-life of 364
- Pancreatic juice and bile, secretion of, Effect of oral doses of zinc oxide on, in sheep 58
- Parvaquone, Comparison of long acting oxytetracycline and, in immunisation against East Coast fever by infection and treatment 175
- Pasteurella haemolytica* not typable by the indirect haemagglutination test, Studies on strains of 188
- Pasteurella haemolytica* serotype A2 in aerosols, Susceptibility of specific pathogen-free lambs to concentrations of 374
- Plasma and histological changes in furazolidone treated chickens 290
- Plasma cortisol, leucocytes and B lymphocytes, Changes in piglets from birth to three weeks after weaning 234
- Plasma gastrin in the pig from birth to weaning 362
- Plasma vitamin B12 concentrations in cattle, Contribution of cobalamin analogues to 249
- Pneumonia, calf, Bacteria associated with, and their effect on gnotobiotic calves 194
- Pneumonic pasteurellosis, bovine, Experimental production of 154
- Pregnancy, Variations in blood composition in cows during, and after calving 129
- Prolactin, exogenous, Effect on immunity in chickens 123
- Praziquantel, Absorption of cysticerci in cattle after treatment of *Taenia saginata* cysticercosis with 378
- Prostaglandin E₂ production, inhibition by Flunixin, in equine inflammation 347
- Protein precursors, DNA and RNA in cultured mammalian cells, Effects of some clinically significant mycotoxins on the incorporation of 30
- QRS potentials, Beat-to-beat variability in, recorded with an orthogonal lead system in horses with second degree partial A-V block 334
- RNA-dependent DNA polymerase in canine milk, Preliminary report on the presence of 97
- RNA, DNA and protein precursors in cultured mammalian cells, Effects of some clinically significant mycotoxins on the incorporation of 30
- Reproductive tract secretions of the mare, Quantitation of the immunoglobulins in 324
- Reovirus, Serological response and virus shedding of chickens inoculated with, via different routes 227
- Salmonella typhimurium*, Growth of, in the caecum of gnotobiotic chickens with *Eimeria tenella* 230
- Serological response and virus shedding of chickens inoculated with reovirus via different routes 227
- Serum gamma glutamyl transpeptidase activity in cattle with induced fascioliasis 167
- Slaughter, Differences in behaviour between sheep and cattle during 223
- Soleus muscle development in female mice, Genesis of oestrogenic inhibition of 138
- Soyabean products, Survival of dietary antigens in the digestive tract of calves intolerant to 242
- Spirochaetosis, avian, experimental, Enteritis and green diarrhoea in 381
- Staphylococcus aureus*, Absence of encapsulation in strains of, isolated from bovine mastitis 359
- Stress-susceptible pigs, Histochemical studies on the zona reticularis of 269
- Superficial cervical lymph node in sheep, Drainage of lymph from the foreleg to 66
- Systolic time intervals, left side, Relationship to beat-by-beat heart rate and blood pressure variables in some cardiac arrhythmias of the horse 18
- Taenia saginata* cysticercosis, treatment with praziquantel, Absorption of cysticerci in cattle after 378
- Temperature, humidity, and lung lesions in veal calves, Relationships between counts of nasopharyngeal bacteria and 132

- Theileria annulata* infection: Chemotherapy of bovine tropical theileriosis 247
- Thiomolybdate administration, X-ray microanalysis of liver and kidney in copper loaded sheep, with and without 273
- Tissue eosinophils, Histochemical identification of, in the inflammatory response of the foal 7
- Tropical theileriosis, bovine, Chemotherapy of: *Theileria annulata* infection 247
- Vaccination and challenge with avian infectious bronchitis virus, Sequential development of humoral immunity and assessment of protection in chickens following 77
- Veal calves, Relationships between counts of nasopharyngeal bacteria, temperature, humidity and lung lesions in 132
- Virus shedding and Serological response of chickens inoculated with reovirus via different routes 227
- Vitamin B12, plasma concentrations in cattle, Contribution of cobalamin analogues to 249
- Water, Importance for the health and productivity of the dairy cow 283
- White muscle disease, Impaired mitogen responses in lambs with 357
- X-ray microanalysis of liver and kidney in copper loaded sheep with and without thiomolybdate administration 273
- Yersinia* species, Migratory waterfowl as flying reservoirs of 266
- Zinc oxide, Effect of oral doses of, on the secretion of pancreatic juices and bile in sheep 58
- Zona reticularis of stress-susceptible pigs, Histochemical studies on 269
